

Large Format Remote Display is usually used in locations where it is inconvenient to use cards to change the displayed function, like on a mast pod. The large format makes it ideal for mounting where it will be viewed from a long distance away.

Features

- ◆ 1.75" full 4-digit high contrast LCD numeric readout, the largest available
- ◆ .6" 10-character british-flag descriptor readout
- ◆ Hi-tech 10-level fiber optic backlighting draws a maximum of 22milliamps
- ◆ Display draws only 30 milliamps with lights off
- ◆ 15 predefined function menus simplify selection by remote button control
- ◆ Optional preset to any function
- ◆ Full remote control over the Ockam Bus
 - ◇ Specify function by menu and item
 - ◇ Move to next or previous item
 - ◇ Specify function by tag
 - ◇ Lighting level control globally and individually
 - ◇ Writable descriptor allows full text messaging in addition to numeric readout
